

WET LAB DESCRIPTIONS AND PRICES

(Please mark the appropriate lab you would like to attend, carry over total to registration form)

Thursday, June 19, 2008

Ultrasound Wet Lab: Beginning – 1-4pm \$275_____

This lab is intended for people interested in buying new or upgraded ultrasound equipment or in learning the basic skills and applications of ultrasonography. Participants will review the basics of ultrasound image generation, terminology, artifacts and imaging protocols. Multiple ultrasound machines will be available for scanning the canine liver, spleen, kidneys and bladder. Non-Doppler cardiac imaging will also be covered.

Stifle Repair Wet Lab – 1-4pm \$275_____

This lab will cover practical methods of repair for both ruptured cruciate and patella luxation.

Ear Care Wet Lab – 1-4pm \$125_____

Learn how to diagnose and treat ear disease – one of the most vexing conditions you experience in everyday practice utilizing anatomical specimens and the MedRx videoscope.

Friday, June 20, 2008

External Fixation Lab – 8:30am - 11:30am \$275_____

Basic Dental Lab – 8:30am - 11:30am \$150_____

Ultrasound Wet Lab: Advanced – 1-4pm \$275_____

This lab is intended for people who attended the beginning lab or who have some experience with ultrasound. It is designed to expand upon the skills acquired in the beginning lab. Participants will learn to identify and image more difficult organs including the adrenal glands, lymph nodes, pancreas, and specific segments of the GI tract. Doppler cardiac imaging will be covered.

Stifle Repair Lab – 1-4pm \$275_____

The lab will cover practical methods of repair for both ruptured cruciate and patella luxation.

Saturday, June 21, 2008
